

Dear future customer,

We are writing to inform you of Telemate, a new and innovative product we are bringing to the market soon. Powered by artificial intelligence, Telemate can revolutionize how your business operates by eliminating a costly bottleneck created by human receptionists. The base version of Telemate can offer your business a multitude of features, including:

- Four receptionist personalities to fit your business model,
- 24/7 availability, so that you never miss an order,
- Multi-line availability, with minimal hold time on the line,
- The elimination of human error, which reduces costs.

We started Telemate to support small business needs by revolutionizing the role of the receptionist. With Telemate, you can streamline your operations and enhance the customer experience with an accurate and efficient AI.

If our product piques your interest, please do not hesitate to contact us at +1833-659-3497 or telemate.ai. Our goal is to launch Telemate by June 14th, 2024. Before launch, you can opt-in to our early-access program at telemate.ai/waitlist and receive your first month free.

Thank you for considering Telemate as your next receptionist. We are excited about the opportunity to strengthen your business with our product.

Sincerely,

Matthew Koszewicz
